

The Longleaf Alliance's Longleaf Academy: Understory Restoration 201

Expert botanists and ecologists from The Longleaf Alliance and partners will lead the attendees in this 2.5 day workshop consisting of both classroom lectures and hands-on field exercises. Field work will occur on the Vernon Unit within the Calcasieu Ranger District of the nearby Kisatchie National Forest and will provide continuing education about the diverse longleaf understory, with an emphasis on native warm season grasses, composites and legumes. Plant identification guides will be included with registration.
